Information Bulletin #1866

17 August 2018

Supported by:

Australian Government
Australian Sports Commission

Affected Disciplines:

Track and Dirt Track

Information Pertains to:

Rule Changes for 2019 Manual of Motorcycle Sport

Explanation:

Due to the large amount of feedback received from competitors and clubs regarding the proposed rule changes to be included in the 2019 Manual of Motorcycle Sport for Track and Dirt Track disciplines, the following action has been proposed.

The Rules and Technical Committee determined to defer any rule changes until such time a consultative forum can be established to set the future direction of these disciplines.

The forum will consist of representatives from State Controlling Bodies (SCB), the Rules and Technical Committee, MA, Track and Dirt Track clubs, Competitors and Senior Officials. MA and the SCB's will approach clubs, officials and competitors to get involved in the forum and therefore take part in determining the outcome for their discipline.

The Rules & Technical Committee and MA believe that having representation from SCB's, Clubs, Competitors and Senior Officials included in the forum is the best way to determine the future direction and establish the rules required for the disciplines to move forward. The view is to introduce any rule changes decided by the forum into the 2020 Manual of Motorcycle Sport.
